## BIOGRAPHY

The Doug Wahlberg Band has been electrifying audiences for years, performing originals most cannot distinguish from mainstream radio play. Their music features simple melodic hooks that are simultaneously gritty and laid back while hypnotic and driving. Band members have resumes that boast performances with the unparalleled talents of Neal Smith of Alice Cooper Band, Jose Feliciano, and Ian Hunter. The band recently played with Eric Burdon and the Animals to a crowd of 15,000, as well as opening for Jefferson Starship. They've also opened for classic acts such as Paul Simon, Foreigner, George Thorogood, Blue Oyster Cult, The Ramones, Eddie Money, and Cheap Trick.

## PRESS

"Every number sounds instantly familiar, the hooks are so big, vibrant, and barbed they draw blood and absolutely demand repeated plays. The guitar playing glistens. It's another era. But while the Doug Wahlberg Band sounds like everyone, they sound like no one but – Doug Wahlberg."

-Pete Whalley – *Get Ready to Rock*

"The shimmering rhythm and expressive singing of Doug Wahlberg puts the listener at ease. So much so that we find ourselves bellowing the choruses to "Broken" or "What if?" From the first listen."

-François Becquart – *Music in Belgium*
